DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 10-57 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The phrase "treated smectite clay" as used in claims 26-41, does not particularly point out how applicant intends for the clay to be treated.

Claims 10-57 recite the limitation "the platelets" with in the process steps of the claims.

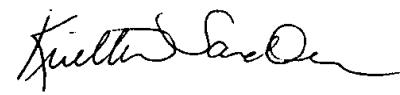

There is insufficient antecedent basis for this limitation in the claim.

All claims refer to a negatively charged organic compound. Applicant does not particularly point out and distinctly claim the organic compound which he intends for the invention.

No anticipatory art has been found. Applicant is reminded of his duty to disclose any art which he finds relevant to the examination of this application. Prior art cited on form 892 provides technological background information.

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to K. Sanders whose telephone number is (703) 308-2435.
